

Python - Analiza danych z modulem PANDAS

www.udemy.com (<http://www.udemy.com>) (R)

LAB - S04-L003-Dodawanie i usuwanie wierszy

1. Zaimportuj moduł pandas i numpy, nadaj im standardowe aliasy. Do zmiennej **professions** wczytaj zawartość pliku **Prestige.csv**. Wyświetl nagłówek obiektu data frame.
2. Zdefiniuj słownik w zmiennej **dict**, który ma klucze takie, jak nazwy kolumn w **professions**. Wpisz do wartości dla klucza **name - data scientist**, pozostałe wartości zdefiniuj jako NaN. Wyświetl obiekt w celu weryfikacji.
3. Dodaj do **professions** nowy wiersz zdefiniowany przez słownik **dict**. W celu weryfikacji wyświetl 5 ostatnich wartości z **professions**
4. Odszukaj w **professions** wiersza, w którym name to **taxi.drivers**. Zapisz go do zmiennej **taxi** i wyświetl.
5. Usuń z **professions** wiersz z indeksem 98 (to właśnie **taxi.drivers**). Wyświetl 5 ostatnich wartości z **professions**
6. Dodaj wiersz znajdujący się w **taxi** do **professions**, w taki sposób, aby wiersz na stałe znajdował się w zmiennej **professions**. **Wyświetl ostatnich 5 wierszy *professions** w celu weryfikacji
7. Usuń z **professions** kolumnę **census**
8. Usuń z **professions** kolumnę **type**. Wykorzystaj do tego inną metodę niż wykorzystana w poprzednim zadaniu

Rozwiązania:

Poniżej znajdują się propozycje rozwiązań zadań. Prawdopodobnie istnieje wiele dobrych rozwiązań, dlatego jeżeli rozwiązujesz zadania samodzielnie, to najprawdopodobniej zrobisz to inaczej, może nawet lepiej :) Możesz pochwalić się swoimi rozwiązaniami w sekcji Q&A

```
In [1]: import pandas as pd
import numpy as np
professions = pd.read_csv("Prestige.csv")
professions.head(5)
```

```
Out[1]:
```

| | name | education | income | women | prestige | census | type |
|---|---------------------|-----------|--------|-------|----------|--------|------|
| 0 | gov.administrators | 13.11 | 12351 | 11.16 | 68.8 | 1113 | prof |
| 1 | general.managers | 12.26 | 25879 | 4.02 | 69.1 | 1130 | prof |
| 2 | accountants | 12.77 | 9271 | 15.70 | 63.4 | 1171 | prof |
| 3 | purchasing.officers | 11.42 | 8865 | 9.11 | 56.8 | 1175 | prof |
